A scriptural framework leads to specific expectations about the genetic differences among humans and other species, expectations that can be scientifically tested against modern genetic data. Genetics confirms the recent, supernatural creation of Adam and Eve and refutes the evolutionary narrative on human origins.

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
