Chapter 14 Introduction Why are human conditions, such as fatigue, complacency, and stress, so important in aviation maintenance? These conditions, along with many others, are called human factors. Human factors directly cause or contribute to many aviation accidents. It is universally agreed that 80 percent of maintenance errors involve human factors.

Chapter 14: The Human Body

While there are many such models, a simplified view of human information processing will serve our needs.10 Figure 14-2 is a block diagram showing the three general processes an AMT (or anyone else) goes through to perform an action.

A-PDF Split DEMO Chapter 14 HUMAN ERROR - faa.gov

To study human inheritance, biologists use pedigree charts. A pedigree chart shows relationships within a

family. The inheritance of a trait can be traced through the family. From this, biologists may determine the genotypes of family members. It is difficult to link an observed human trait with a specific gene.
