Guided Reading And Study Workbook Chapter 3 The Biosphere

2 Energy Flow All organisms need to obtain energy from their environment to power life processes. Sunlight is the main energy source for life on Earth. Some organisms rely on the energy stored in inorganic chemical compounds. Organisms that can capture energy from sun-light or chemicals and use that energy to produce food are called autotrophs.

Chapter 3 The Biosphere Summary - Rochester City School

Chapter 3 The Biosphere . I. Ecology A. scientific study of interactions among organisms and between organisms and their environment, or surroundings B. Ecological Levels of Organization 1. Organism = One individual 2. Population = One group of species in same place and time 3. Community = Two or more species
