### conceptual physics chapter 2 Flashcards and Study Sets

In this chapter we will be concerned with mechanical equilibrium. Things in mechanical equilibrium are stable, without changes of motion. The rocks shown at right are in mechanical equilibrium. An unbalanced external force would be needed to change their resting state. An object in mechanical equilibrium is stable, without changes in motion.

Chapter 3: Linear Motion Preliminaries â€” Linear motion is motion in a straight line. â€” Note that motion is relative: e.g. your paper is moving at 107 000 km/hr relative to the sun. But it is at rest relative to you. Unless otherwise stated, when we talk about speed of things in the environment, we will mean relative to the Earthâ€™s surface.
