Leaders of any ilk and department are struggling. Society is awash with social technologies; employees want to be included in the conversations and decisions; and management is stuck sorting out how teams should operate with dated leadership models against a new and technology-sophisticated social world order.

What is meant by Inclusive Design? Whilst it can be easy and tempting to build solutions based upon our own needs and experiences, if you are designing solutions which will impact other people (specific customers, colleagues or the general public), it is imperative to consider the needs of different users so that you do not unintentionally exclude anyone.

One of the most challenging aspects of teaching in today's diverse classroom is the differentiated practice of effectively using flexible grouping and collaborative learning.

### **A Teacher's Guide to Flexible Grouping and Collaborative**

Inclusion, in education refers to the a model wherein special needs students spend most or all of their time with non-special (general education) needs students. It arises in the context of special education with an individualized education program or 504 plan, and is built on the notion that it is more effective for students with special needs to have said mixed experience for them to be more ...
