Cinematography, also called direction of photography, is the science or art of motion-picture photography by recording light or other electromagnetic radiation, either electronically by means of an image sensor, or chemically by means of a light-sensitive material such as film stock.. Cinematographers use a lens to focus reflected light from objects into a real image that is transferred to ...

**Cinematography - Wikipedia**

A novel is a relatively long work of narrative fiction, normally in prose, which is typically published as a book.. The genre has been described as having "a continuous and comprehensive history of about two thousand years", with its origins in classical Greece and Rome, in medieval and early modern romance, and in the tradition of the novella.The latter, an Italian word for a short story to ...
