Description: Health care providers must become culturally competent in their knowledge, development and

implementation of practices informed by differing cultures, beliefs and attitudes. Understanding the social needs of patients and the community at-large is critical in ensuring positive health outcomes, particularly for at-risk populations.

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
