Over Thanksgiving, I was discussing tulip subsidies with the pro-Bernie-Sanders faction of my family, and my uncle claimed that we needed college because "it teaches you how to think critically". The evidence sort of supports him, but with the usual caveats and uncertainties. First of all, what the heck is critical thinking?

The critical period hypothesis is the subject of a long-standing debate in linguistics and language acquisition over the extent to which the ability to acquire language is biologically linked to age. The hypothesis claims that there is an ideal time window to acquire language in a linguistically rich environment, after which further language acquisition becomes much more difficult and effortful.

In informal logic and philosophy, an argument map or argument diagram is a visual representation of the structure of an argument. An argument map typically includes the key components of the argument, traditionally called the conclusion and the premises, also called contention and reasons. Argument maps can also show co-premises, objections, counterarguments, rebuttals, and lemmas.
