Dark matter is a hypothetical form of matter that is thought to account for approximately 85% of the matter in the universe, and about a quarter of its total energy density. The majority of dark matter is thought to be non-baryonic in nature, possibly being composed of some as-yet undiscovered subatomic particles. Its presence is implied in a variety of astrophysical observations, including ...

People who think persistent contrails indicate some kind of conspiracy (which they call "chemtrails"), sometime point to the "dark lines" that sometimes accompany contrails. Since they can't immediately think of why these dark lines should be there, they assume it's part of the conspiracy. Either there is some kind of "dark chemtrail", or the plane is projecting a dark beam of ...
