Design is the discipline of creating solutions that work well for people. It brings together multi-disciplinary skills to focus our efforts to create happy users, developers and administrators alike.

IBM Design: design in motion

Design thinking is the cognitive process from which design concepts (e.g. ideas for products) emerge. Design thinking is related to, but different from problem-solving, decision-making, creativity, sketching and prototyping. During design thinking, the designer's attention oscillates between their understanding of a problematic context and their ideas for a solution.
