dimensionality of the sampled space. This approach allows the user to progressively pin down the desired layout. 2 Furniture Layout Guidelines Furniture layout design falls under the umbrella of space planning, a sub-field of interior design that deals with the allocation of spatial resources [Kilmer and Kilmer 1992;Kubba 2003;Pile 2007;Karlen 2009].

## **Interactive Furniture Layout Using Interior Design Guidelines**

In interior design, those principles are proportion, scale, emphasis, balance, rhythm and style. These principles will guide you as you direct the elements or components of design which are: line, form, color and value, texture, pattern, light and space. Note: Broken principles are what make us FEEL wrong about a room or space.
