Writing therapy is a form of expressive therapy that uses the act of writing and processing the written word as therapy. Writing therapy posits that writing one's feelings gradually eases feelings of emotional trauma.

Writing therapeutically can take place individually or in a group and it can be administered in person with a therapist or remotely through mailing or the Internet.

Introduction The ability to communicate ideas effectively is increasingly recognized as critical to the success of the healthcare system. Effective communication is required not only for successful interactions between individuals and their health care providers (1) but also between health care providers themselves.
