Combining form definition, a linguistic form that occurs only in combination with other forms. In word formation, a combining form may conjoin with an independent word (mini- + skirt), another combining form (photo- + -graphy), or an affix (cephal- + -ic); it is thus distinct from an affix, which can be added to either a free word or a combining form but not solely to another affix (Iceland + -ic or cephal- + -ic but not pro- + -ic).
