Observation is the active acquisition of information from a primary source. In living beings, observation employs the senses. In science, observation can also involve the recording of data via the use of scientific instruments. The term may also refer to any data collected during the scientific activity.

UNIT: Total and Direct Bilirubin (continued) F 114 C MLAB 2401 - Clinical Chemistry Lab Manual organic or genetic causes. Post-hepatic jaundice refers to anatomic obstruction of the extra- hepatic biliary tree.

Unit: Total and Direct Bilirubin

In physics, the observer effect is the theory that simply observing a situation or phenomenon necessarily changes that phenomenon. This is often the result of instruments that, by necessity, alter the state of what they measure in some manner. A commonplace example is checking the pressure in an automobile tire; this is difficult to do without letting out some of the air, thus changing the ...
