When someone mentions "different dimensions," we tend to think of things like parallel universes "alternate realities that exist parallel to our own, but where things work or happened differently."

### **A universe of 10 dimensions - Phys.org**

Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.
