I was chatting with Charlotte, a subscriber on the Epic Gardening YouTube channel and she had a REALLY good idea: Actually, it would be kinda cool if you had a page on the site for kids's school projects and such for hydroponics.

### **Hydroponics for Kids: Build a 2 Liter Bottle Garden | Epic**

Hydroponics is a subset of hydroculture, which is a method of growing plants without soil by using mineral nutrient solutions in a water solvent. Terrestrial plants may be grown with only their roots exposed to the mineral solution, or the roots may be supported by an inert medium, such as perlite or gravel.. The nutrients used in hydroponic systems can come from an array of different sources ...

### **Hydroponics - Wikipedia**

Aquaponics consists of two main parts, with the aquaculture part for raising aquatic animals and the hydroponics part for growing plants. Aquatic effluents, resulting from uneaten feed or raising animals like fish, accumulate in water due to the closed-system recirculation of most aquaculture systems.
