Context: Continuous delivery is a software development discipline in which software is always kept releasable. The literature contains instructions on how to adopt continuous delivery, but the adoption has been challenging in practice. Objective: In this study, a systematic literature review is conducted to survey the faced problems when adopting continuous delivery.

Book burning is the ritual destruction by fire of books or other written materials, usually carried out in a public context. The burning of books represents an element of censorship and usually proceeds from a cultural, religious, or political opposition to the materials in question.. In some cases, the destroyed works are irreplaceable and their burning constitutes a severe loss to cultural ...
