don t latch go pdf

In electronics, a flip-flop or latch is a circuit that has two stable states and can be used to store state information. A flip-flop is a bistable multivibrator. The circuit can be made to change state by signals applied to one or more control inputs and will have one or two outputs. It is the basic storage element in sequential logic. Flip-flops and latches are fundamental building blocks of ...

A balisong, also known as a fan knife, butterfly knife or Batangas knife, is a folding pocketknife. Its distinct features are two handles counter-rotating around the tang such that, when closed, the blade is concealed within grooves in the handles. A balisong with the latch on the "safe" handle, opposite the cutting edge, is called a Manilla folder. [citation needed]
