Economyths is a book by the mathematician David Orrell about the problems with mainstream economics, written for the general reader. The book was initially published in 2010 by Icon Books in the UK with the subtitle Ten Ways That Economics Gets it Wrong , and by John Wiley & Sons in North America.

Economyths - Wikipedia

"Economyths" explains how the economy is the result of complex and unpredictable processes; how risk models go astray; why the economy is not rational or fair; why no woman (until 2009) had ever won the Nobel Prize for economics; why financial crashes are less Black Swans than part of the landscape; and, finally, how new ideas in mathematics, psychology, and environmentalism are helping to reinvent economics.
