1. Introduction. Paperboard and paper-based materials have a wide range of applications in food packaging. In terms of quality, attractive appearance and the ability to withstand large deformations without damage, paper-based materials have limited a capacity compared to plastic materials.

Finite element analysis of the press forming process

This paper investigates comprehensive knowledge regarding joining CFRP and aluminium alloys in available literature in terms of available methods, bonding processing and mechanism and properties.

Joining of carbon fibre reinforced polymer (CFRP)

This paper investigates types of dampers and their performance during earthquake. Also, they have investigated the tall buildings in the world and satisfactory level of damper performance has been studied.

This is a posting I have hesitated to make. It delayed me from making a post yesterday. I have hesitated because I fear that fanatical anti-farming groups like People Eating Tasty Animals, they who shall not be named or something like that, will try and take this posting and abuse my words for their own ends. Undoubtedly I will also ruffle some feathers and spill some soup.
