Industrial engineering is a branch of engineering which deals with the optimization of complex processes, systems, or organizations. Industrial engineers work to eliminate waste of time, money, materials, person-hours, machine time, energy and other resources that do not generate value. According to the Institute of Industrial and Systems Engineers, they create engineering processes and ...

CIA Economic Analyst assess foreign economic, trade, and financial interests that affect US security interests. Economists working in regional offices focus on a range of macroeconomic and microeconomic issues facing the country or region they cover, while economists working transnational issues take a broader, global approach to such matters and tend to delve more deeply into technical details.
