SQL Server Training - New Horizons Learning Group

Microsoft codenames are given by Microsoft to products it has in development, before these products are given the names by which they appear on store shelves. Many of these products (new versions of Windows in particular) are of major significance to the IT community, and so the terms are often widely used in discussions prior to the official release. . Microsoft usually does not announce a ...

There has been a lot of debates around when to use stored procedures vs. raw sql. Many purists are vehemently on one side of the fence or the other. Strangely people talk about views to a lesser extent. Stored functions and triggers are almost nonexistent in these debates. In this article we'll try to provide a non-biased outline of the benefits and pitfalls of each approach.
