meteorological observations at stations pdf

Meteorology is a branch of the atmospheric sciences which includes atmospheric chemistry and atmospheric physics, with a major focus on weather forecasting. The study of meteorology dates back millennia, though significant progress in meteorology did not occur until the 18th century. The 19th century saw modest progress in the field after weather observation networks were formed across broad ...

Long-term temperature record: Australian Climate

Australian meteorology originated 40,000 years or more ago with the observations, belief systems and lifestyle of the Aborigines. Further information on the valuable contribution of Aboriginal culture to the weather knowledge of the Australian climate can be found in our pages on Indigenous Weather Knowledge. The first systematic weather observations in Australia were made by William Dawes, a ...
