Nature of Biology

The Nature of Biology Science is an ongoing, human, cultural activity which involves the efforts of many people to describe the world in mutually acceptable terms. Scientific knowledge is the cumulative results of the best efforts of finite people. Science is never complete or perfect.

The Nature of Biology - City University of New York

Scientists think of nature as a single system controlled by natural laws. By discovering natural laws, scientists strive to increase their understanding of the natural world. Laws of nature are expressed as scientific laws. A scientific law is a statement that describes what always happens under certain conditions in nature.
