Monopolistic competition is a type of imperfect competition such that many producers sell products that are differentiated from one another (e.g. by branding or quality) and hence are not perfect substitutes. In monopolistic competition, a firm takes the prices charged by its rivals as given and ignores the impact of its own prices on the prices of other firms.

Monopolistic competition - Wikipedia

In economics, a factor market is a market where factors of production are bought and sold, such as the labor market, the physical capital market, the market for raw materials, and the market for management or entrepreneurial resources.. Firms buy productive resources in return for making factor payments at factor prices. The interaction between product and factor markets involves the principle ...

Factor market - Wikipedia

Therefore, even if economic agents intend to make rational choices they usually end up “satisficing”™, accepting a satisfactory outcome rather than searching for an optimal solution.

AQA | Teacher's guide: individual economic decision making

The following scheme of work offers a route through the aspects of the A-level course which are not part of the AS level. Consequently, it assumes prior knowledge and understanding of the AS level content and builds on the skills acquired in the first half of the course.
