Sometimes it is impossible to factor a polynomial by finding the greatest common factor. For instance, the polynomial  $(3xy - 24x^2 - 7y + 56x)$  has no greatest common factor. In this case we can try searching the polynomial for factors that are common to some of the terms. Then we can attempt a method known as grouping. Take the polynomial and separate it into two groups.

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
