Mathematics instruction is a lengthy, incremental process that spans all grade levels. As children begin formal schooling in kindergarten, they develop “number sense”, an intuitive understanding of foundation number concepts and relationships among numbers.

From Jim Wright: Intervention Ideas for MATHEMATICS

In a global information environment, the old pattern of education in answer-finding is one of no avail: one is surrounded by answers, millions of them, moving and mutating at electric speed.

A mind map is a diagram used to visually organize information. A mind map is hierarchical and shows relationships among pieces of the whole. It is often created around a single concept, drawn as an image in the center of a blank page, to which associated representations of ideas such as images, words and parts of words are added.
