# Distributed Series Reactance A New Approach To Realize Grid Power Flow Control

**initial field trials of distributed series reactors and ...** - the distributed series reactor is a self contained device, powered by induction from a transmission line conductor, that increases the series impedance of a circuit by injecting series reactance. the concept was first demonstrated in 2002 - 2003 and has been demonstrated in pilot installations on hv transmission lines. **3 distributed series reactance: a new approach to realize ...** - distributed series reactance: a new approach to realize grid power flow control a thesis presented to the academic faculty by harjeet johal in partial fulfillment of the requirements for the degree doctor of philosophy in the school of electrical and computer engineering georgia institute of technology december 2008 **active smart wires: an inverter-less static series compensator** - the development of the distributed series reactance (dsr) technology, a distributed facts (d-facts) solution also known as smart wires, has been funded by the utility community, given the promise of dsr for reliable and inexpensive power flow control. the dsr is capable of increasing the line reactance, pushing power onto other lines, **studying massive deployment of distributed series reactors ...** - studying massive deployment of distributed series reactors in powerworld simulator mark laufenberg, ph.d. powerworld corporation january 14, 2015 **control of power flow in transmission lines using ...** - control of power flow in transmission lines using distributed series reactors ... control of power flow in transmission lines using distributed series reactors abstract distributed series reactors (dsrs) can be used to control power flow to more fully utilize the ... is the reactance of the line, and  $\theta$  is the phase angle between the sending ..**performance analysis and design of distributed static ...** - performance analysis and design of distributed static series compensators for transmission line reactance control thesis directed by prof. dragan maksimovic the growth and diversification of the electric utility grid has required the expanded use of compensation devices. one class of compensation devices of interest are distributed static series **ieee transactions on power electronics, vol. 22, no. 6 ...** - ieee transactions on power electronics, vol. 22, no. 6, november 2007 2253 ... by way of example, a distributed series impedance (dsi) and a distributed static series compensator (dssc) are shown that can be clipped on to an existing power line and can, dynamically **some studies of distributed series facts controller to ...** - 2013 international conference on power, energy and control (icpec) 978-1-4673-6030-2/13/\$31.00 ©2013 ieee 124 some studies of distributed series facts **smart wire grid distributed facts devices - accantas** - inductive reactance dsc - injecting inductive & capacitive reactance 2010 georgiatech smart wire grid, inc. dsc dssc distributed static series compensator - dsr distributed serie reactor - dsc distributed series compensator dsr - injecting inductive reactance 2015 injecting inductive & capacitive reactance **transmission line parameters - unioviedo** - case, the shut capacitance effect is negligible and only the resistance and inductive reactance are considered. assuming balanced conditions, the line can be represented by the equivalent circuit of a single phase with resistance  $r$ , and inductive reactance  $x_l$  in series (series impedance), as shown in fig. 13.1. **distributed solutions for grid control - stanford university** - distributed series reactance - passive smart wires  $i_0$  thermal line current ( $i$  line)  $n \times m$  control power line transformer  $s_1 \times m$  power supply  $s_m$  • simplest implementation of dsi, with inductive impedance injection (current limiting conductor or clic) - functions as a current limiting system **smart wires - ieee** - ieee pes chapter jackson, ms 08/08/2012 smart wires distributed series reactance for grid power flow control ieee pes chapter meeting - jackson, ms **21, rue d'artois, f-75008 paris cigre us national ...** - distributed series reactance (dsr) modules are distributed flexible ac transmission system (d-facts) devices that alter the impedance in transmission lines to bias power flow in the desired direction and thereby reduce congestion in overloaded lines. sensing and communication features **distributed static series compensator (dssc) application ...** - distributed static series compensator (dssc) application to power system- a review p. p. tambe<sup>1</sup> & k. d. joshi<sup>1,2</sup> department of electrical engineering, g.h.raisoni college of engineering, nagpur, india ... reactance in the line where as the current carrying **d-facts & smart wire technology - powerworld** - distributed series reactor (dsr) • life: 20+ year life; zero maintenance • install: de-energized or live line • fault current: sense within 5  $\mu$ s, then automatic transition from injection to monitoring mode
